

BDLT media test deck

Follows docs/media-spec.md, version 1. Every media item is embedded in this PDF.

- 2-3 Video (MP4, controls), kept playing across two overlay steps (same id)
- 4 Frame animation (20 PNG frames, the \animategraphics replacement)
- 5 Animated GIF (image type)
- 6 Interactive widget, offline: network with PageRank, drag nodes, damping slider
- 7 Interactive widget with Plotly loaded from the web (needs internet)
- 8 Muted video that starts by itself and loops
- 9 Unknown spec version: must stay a plain picture

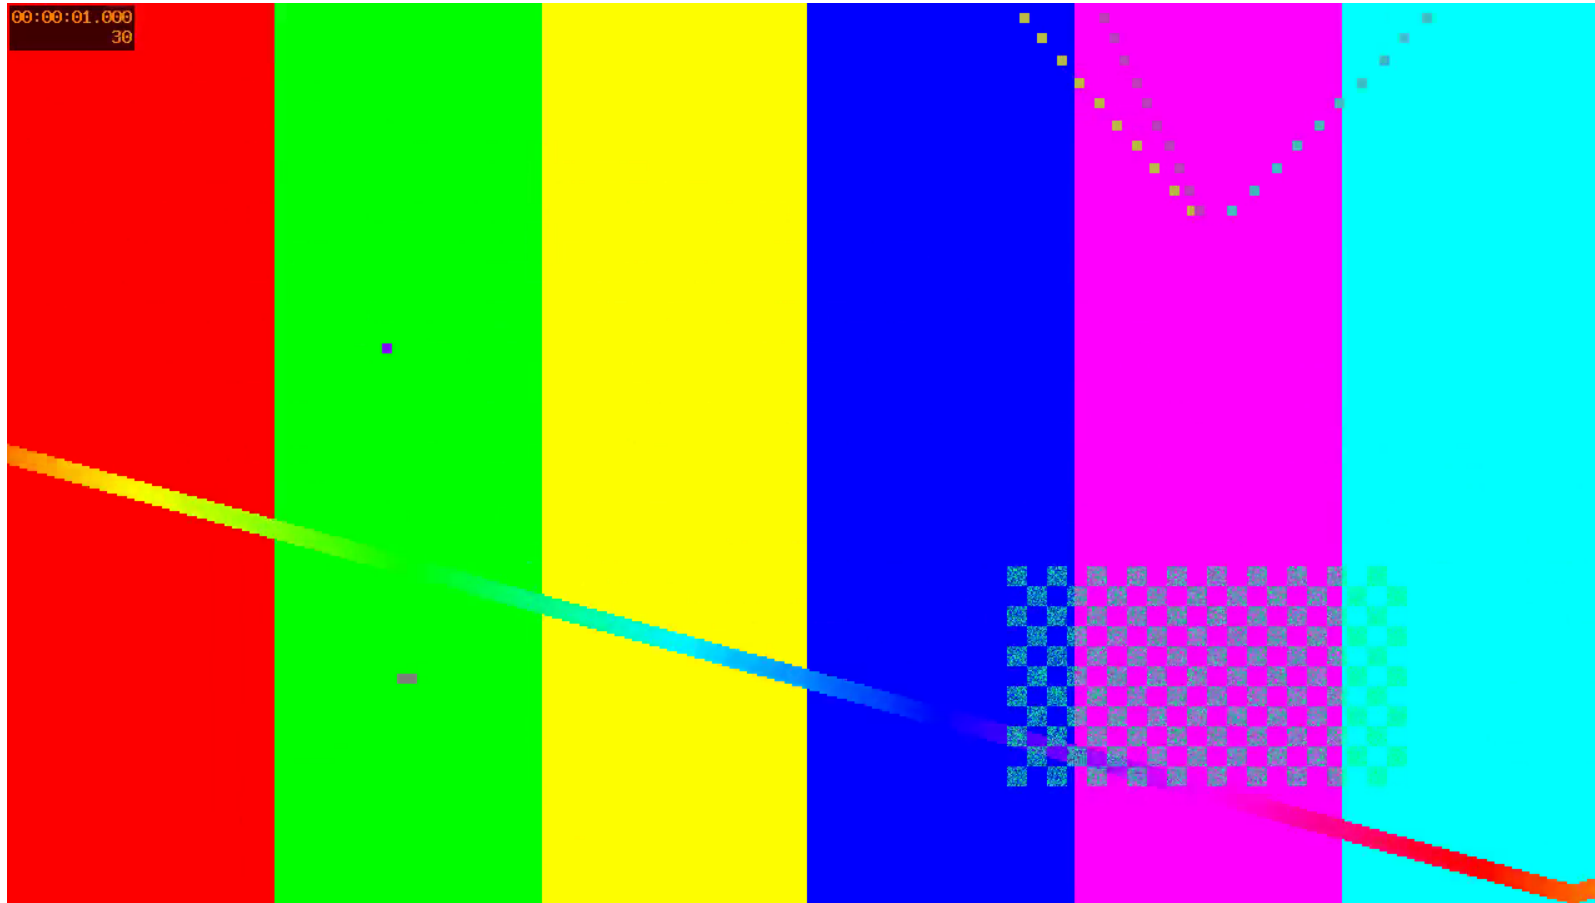

Video: tap to play

Marker: type=video;src=attach:test-video.mp4;id=vid1;controls

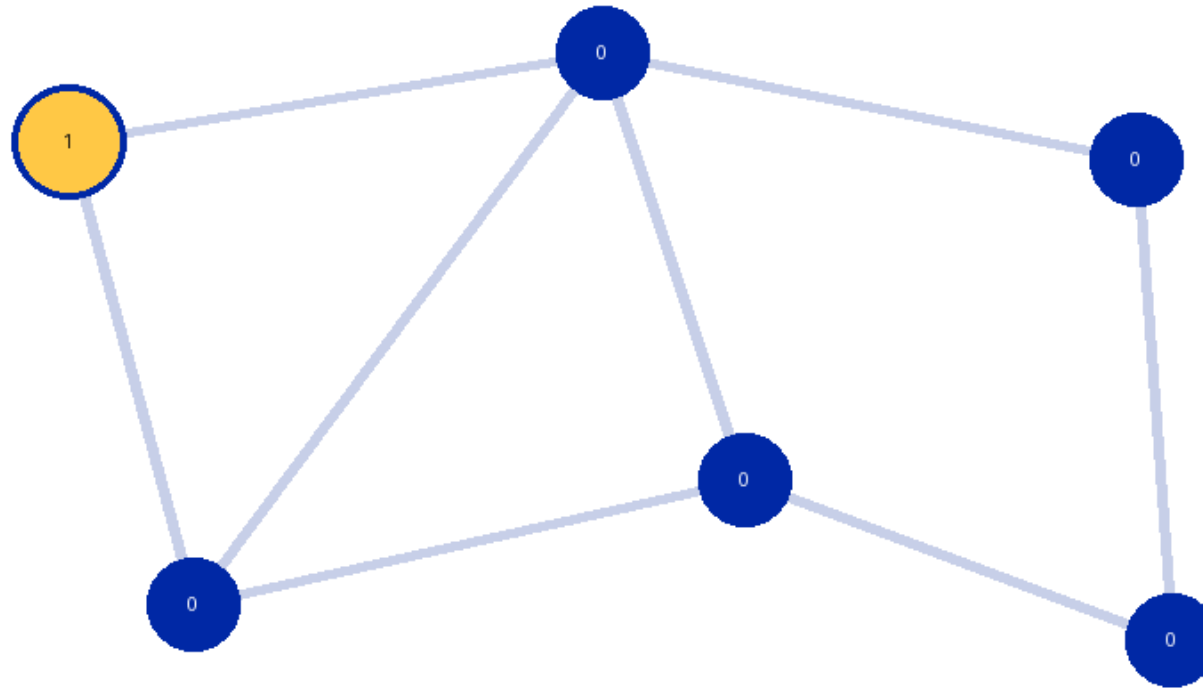

Video, overlay step 2: it keeps playing

Step 2 adds this line.

Same id and rectangle as the previous page, so the presenter keeps the same player.

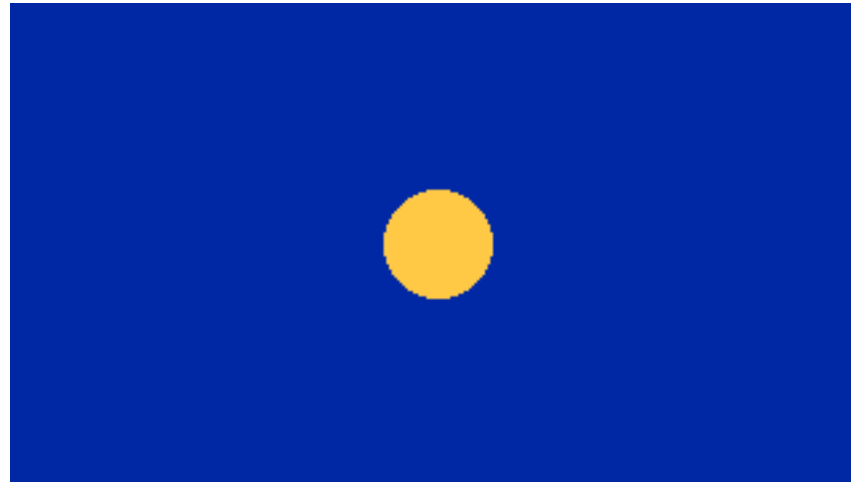

Frame animation (animate replacement)

Random surfer, step 1 of 20

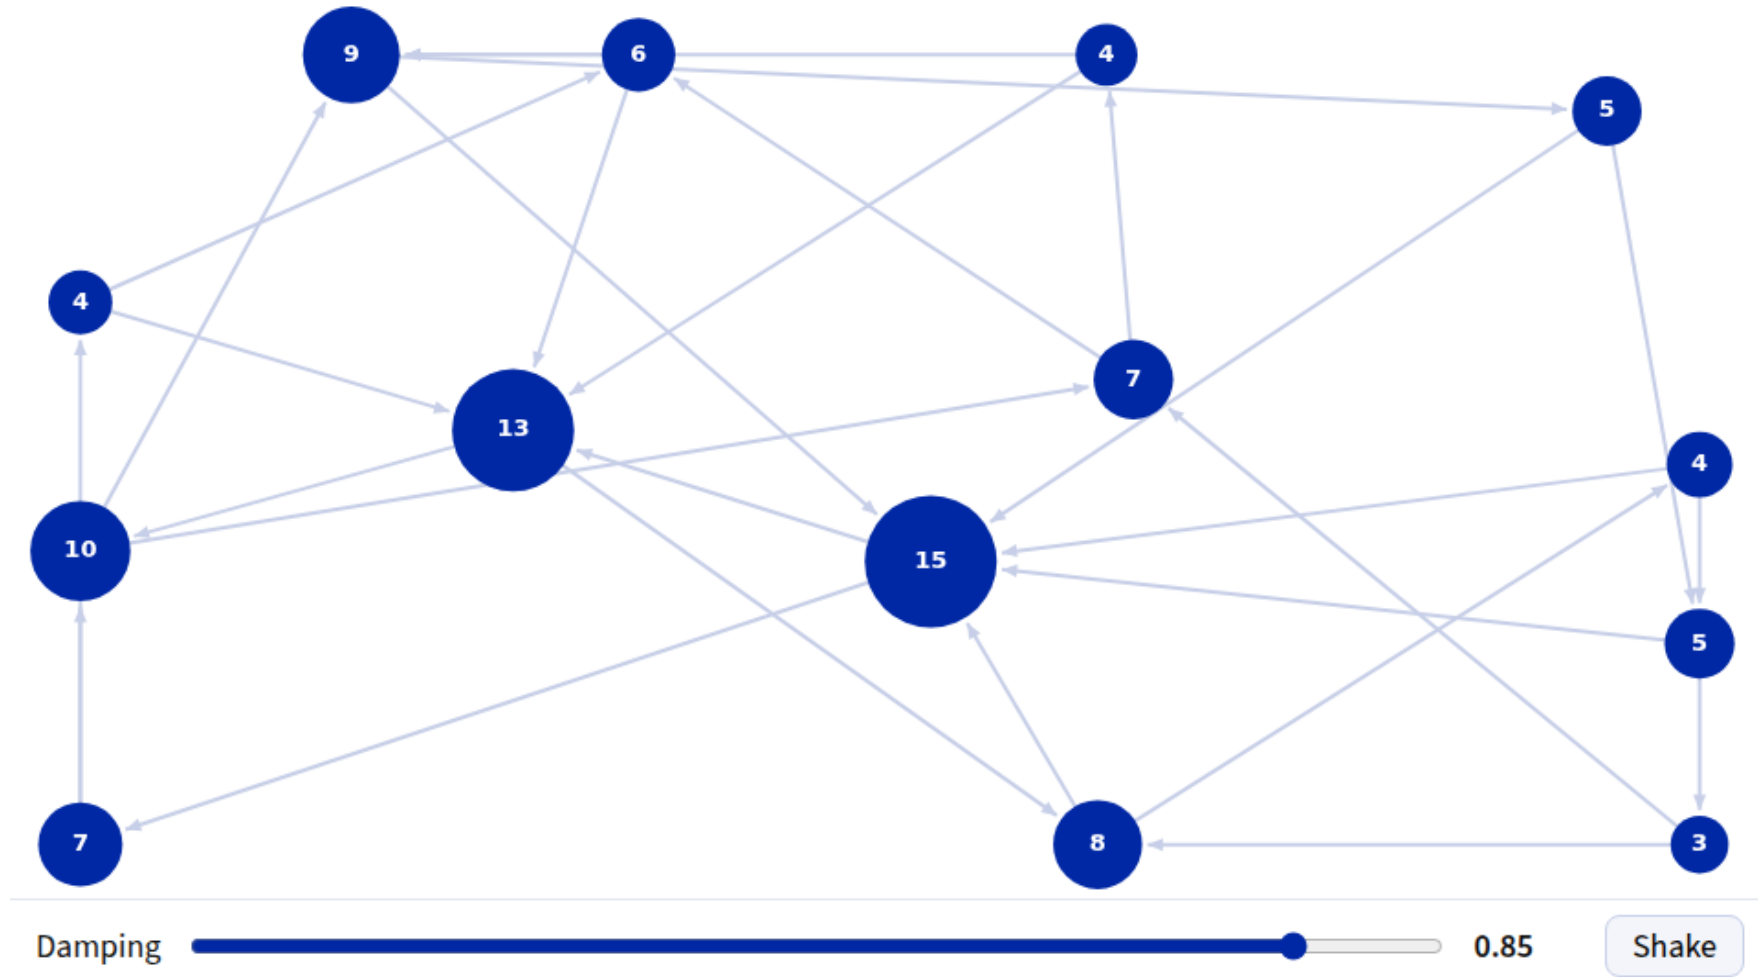

Marker: type=frames;src=attach:frame-%02d.png;first=0;last=19;fps=3;loop;controls

Animated GIF

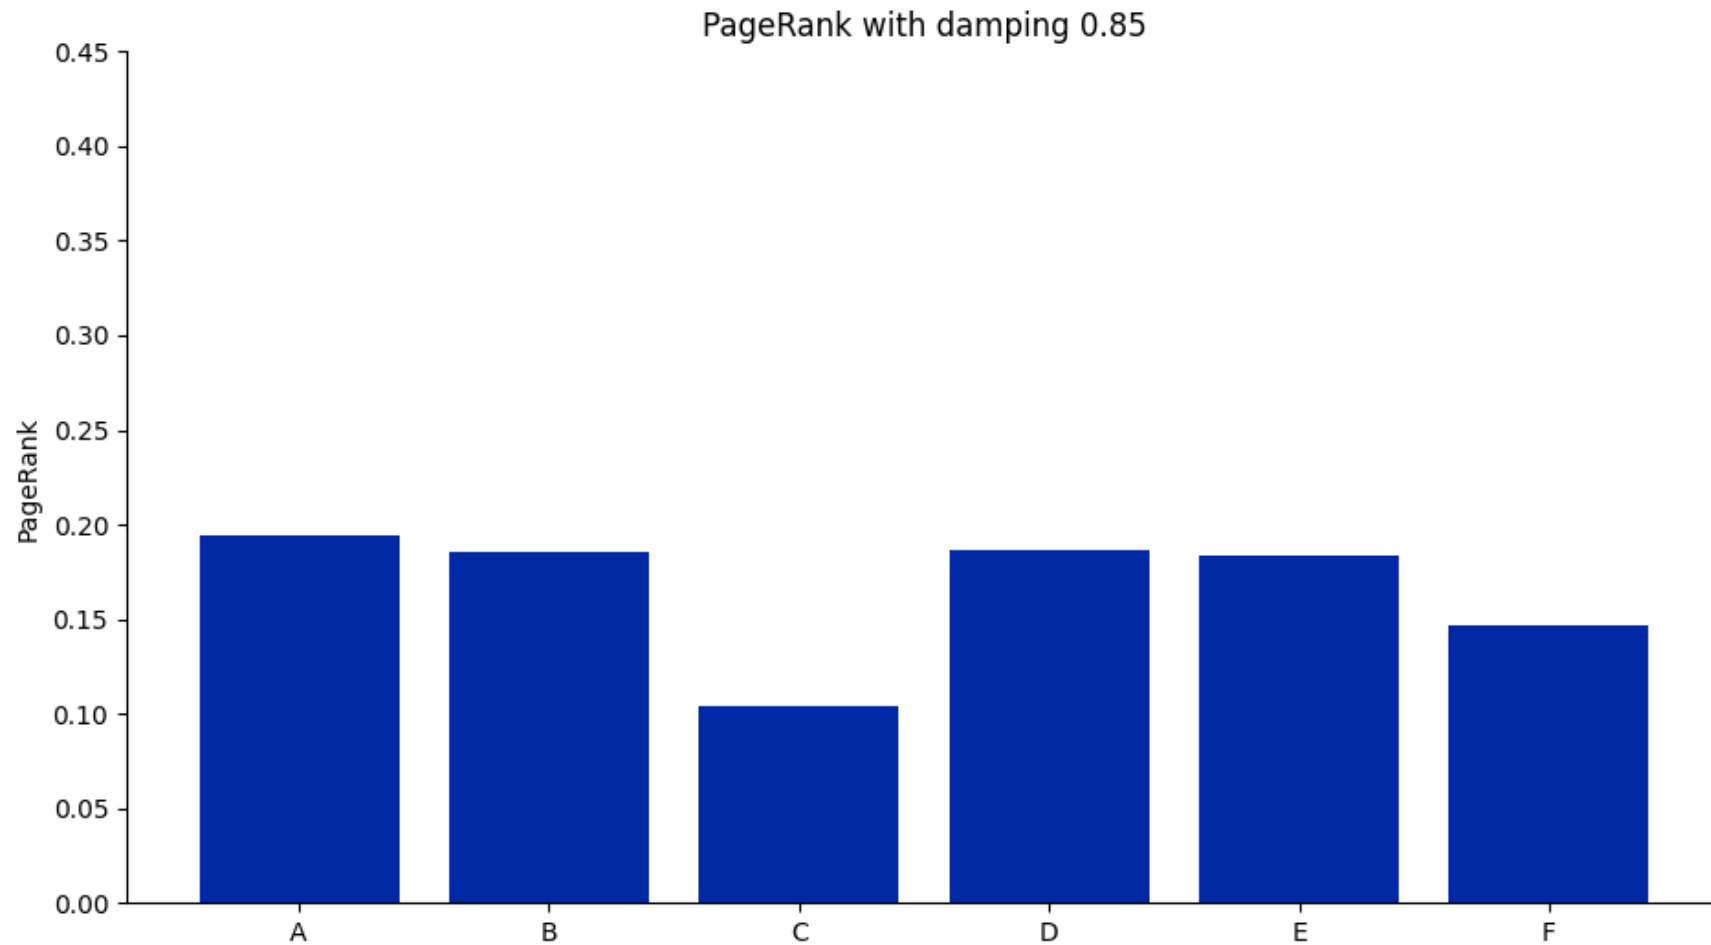

Marker: type=image;src=attach:pulse.gif

Widget: PageRank on a network

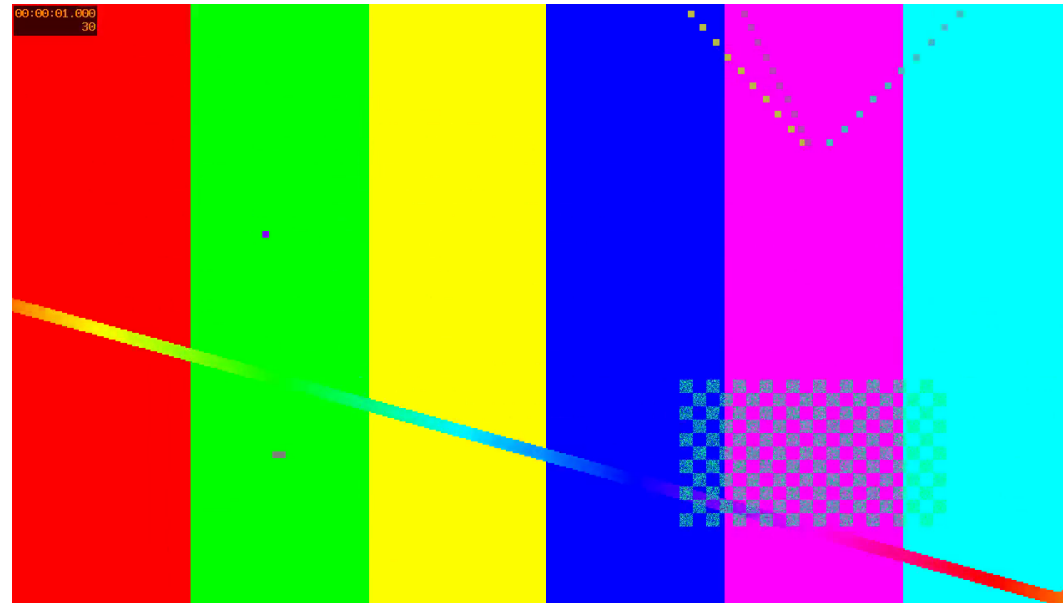

Drag nodes with a finger, move the slider; the Pencil still writes on top. Marker:
type=widget;src=attach:network-widget.html;sync=state;x-damping=0.85

Widget: Plotly (loaded from the web)

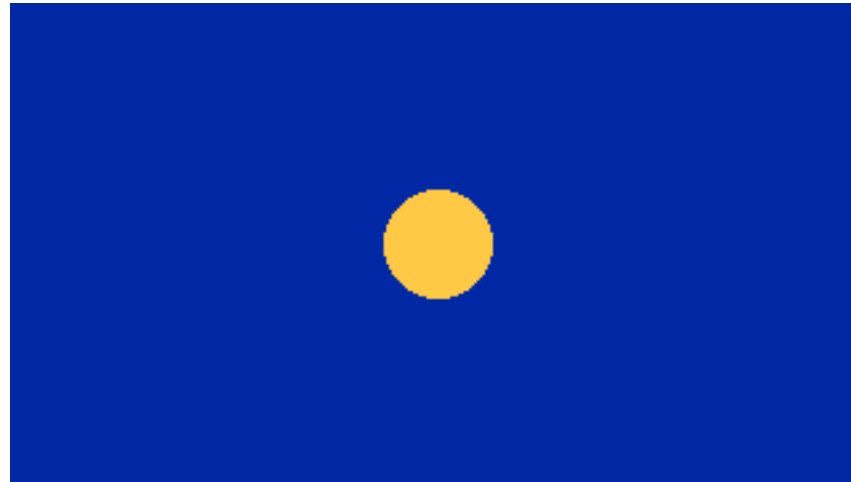

Needs an internet connection for Plotly. Marker: type=widget;src=attach:plotly-widget.html

Muted video: starts by itself and loops

Marker: type=video;src=attach:test-video.mp4;autoplay;muted;loop;controls=0;start=2;end=6

Unknown version: stays a picture

Marker: bdl-media:v9;... The presenter must leave the placeholder alone.
