Research Group

Pinch to zoom

Pinch with two fingers to zoom

Drag with one finger to move around while zoomed in.

Double-tap to fit the whole slide again.

The Pencil keeps writing while you are zoomed in.

Writing tools: only the Pencil draws

Pen

Pressure-sensitive ink, up to 10 UZH colours.

Highlighter

Transparent marks in the six UZH accent colours.

Laser pointer

A fading trail that points without marking.

Eraser

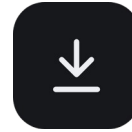

Touch a stroke with the Pencil to remove it.

The toolbar, button by button

Open

Load a PDF from Files or iCloud Drive.

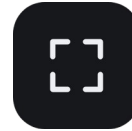

Save

Writes your ink into a new PDF.

Previous / next

Same as tapping the left or right third.

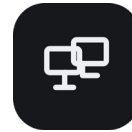

Full screen

Hides the browser bars where allowed.

Slide overview

Same as the lower-quarter triple-tap.

Same or separate views

Mirror one screen, or projector plus lecturer view.

Undo

Takes back the last change on this slide.

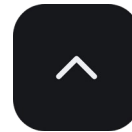

Settings

Colours, slide strip speed and glide.

Clear

Removes all ink on this slide.

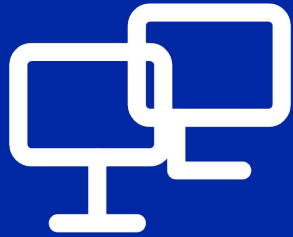

Hide toolbar

Tap the top centre of the slide to bring it back.

**Same view: mirror the iPad, then tap
the top centre to hide the toolbar**

Separate views: projector and lecturer

1. Tap the two-screens button in the toolbar (in Safari; iPad with M1 chip or later)

2. Touch and hold Projector window, choose Open in New Window, drag it to the display

3. Tap the projector window to fill the screen. This iPad shows the clock and slide strip

Save keeps your notes

Save writes your ink into a new PDF

On iPad, choose Save to Files and pick a folder.

Try it: circle something on this slide, then tap Save.

Open your own PDF from the toolbar to begin
